

STRATUS CLOUD
CONSULTING

COMPANY PROFILE

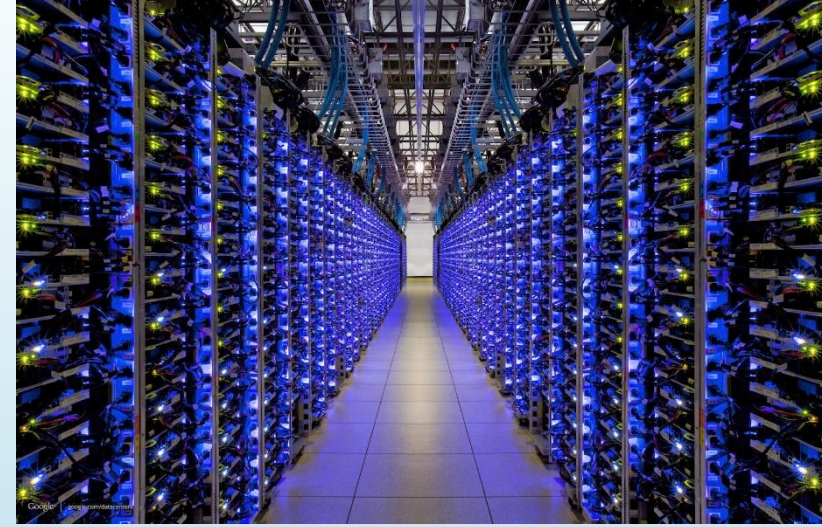

INTRODUCTION

Stratus Cloud Consulting (Pty) Ltd is a proudly South African owned company, specializing in the Design & Building of secure infrastructure solutions.

The company was established in 2016 by Frederik Botha (Executive Director), after 16 years of practical on the job experience in the field of IT Infrastructure Solutions.

His expertise in this fast growing industry of information technology and software offerings enabled our clients to drastically improve their networks, business systems and offerings to their own clients.

We specialise in designing end-to-end infrastructure solutions, hosting client environments on different cloud platforms like AWS, Microsoft Azure, Google Cloud & VMWare

OUR VISION & MISSION

Vision

- To be the most valued partner for our clients and to provide the best possible solutions at the lowest cost by delivering well-architecture solutions.

Mission

- We strive to provide clients with a smooth all-encompassing online experience and strive to exceed their expectations while building healthy and stable relationships.

OUR STRATEGY

Values

Integrity is at the heart of our relationships. We operate every single day with authenticity, openness and reliability. We are each accountable for doing the right thing. We maintain the highest standards of professional and ethical practices. We treat others with dignity, and we recognize that in almost every action we are part of a team, and through our collaborative efforts we align the workforce. We pursue and value others' perspectives, and desire to learn about opinions different from our own.

Business goals & objectives

To grow business operation by expanding the company to more respective business units and to improve brand recognition of the company, by expanding the identification of our logo to the target market.

Growth strategy

Our growth strategy is built around service excellence, which empowers our clients to become agents of our services.

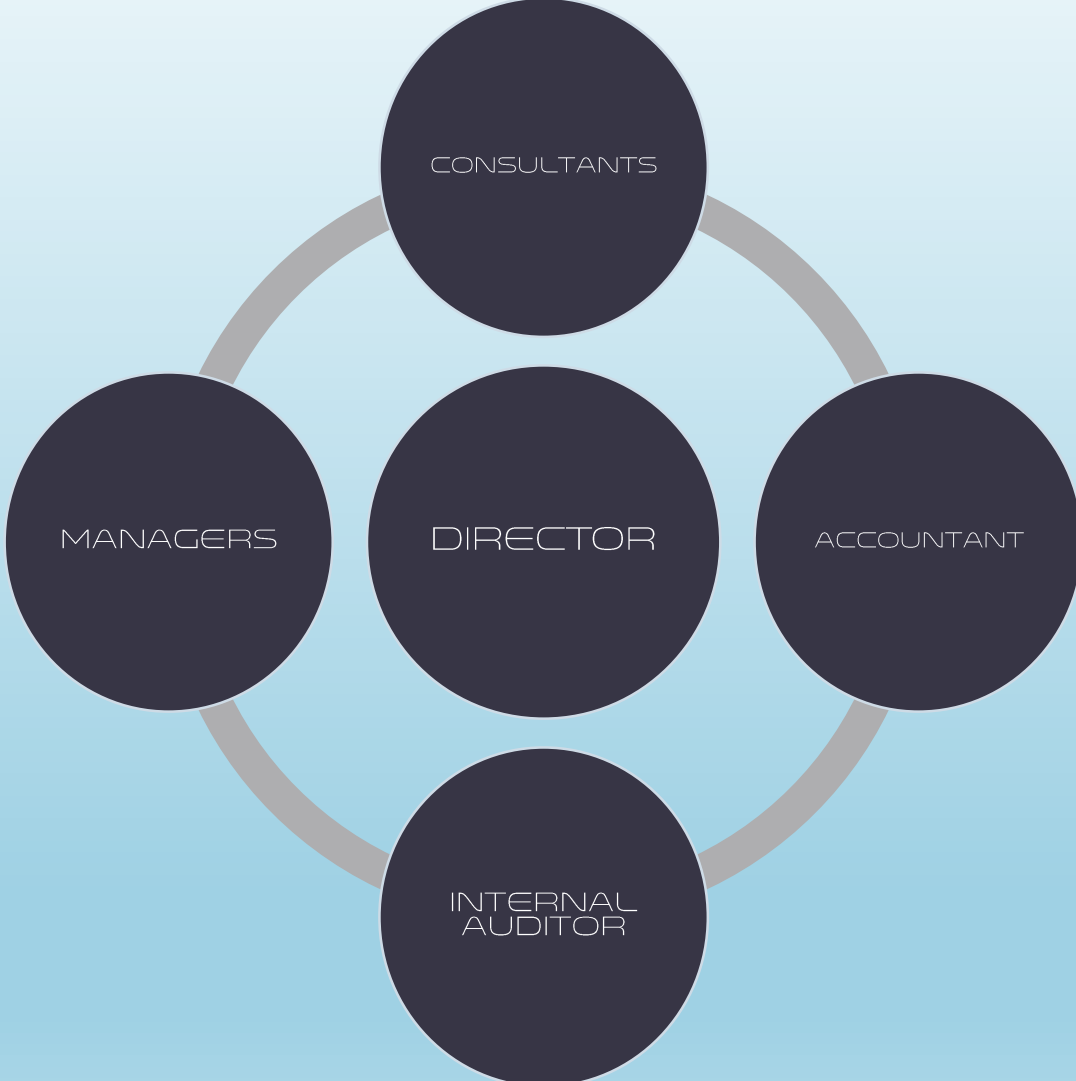

SERVICE OFFERINGS

Targeting quality and value-seeking customers and niche-markets with premium offerings.

To use cost-leadership strategies to achieve the lowest possible cost structures and flexibility towards all clients.
